

PCC Action Plan Discussion

Date: August 9, 2019

Many efforts and recommendations were discussed at our previous convening on how PCC can best support students in making informed decisions with regards to program selection. Today, we would like to provide the space and opportunity to continue these great discussions, and to begin to lay the foundation of how we can actually make these efforts come to fruition. Below are the items that were suggested and briefly discussed at the previous meeting.

For this activity, reconvene in the groups from the last meeting and discuss the strategies that were put forward. For your reference, the strategies discussed are provided below.

- Strategies for Redesigning Classroom
 - Speech Course: Career Module Addition
 - English 1A: assignment (argumentative essay tying research into labor market data with career choices)
 - College 1: Case studies through CA career zone
- Labor Market Utilization
 - Identify “best-bet” occupations that are relevant for students in their communities
- Strategies for Providing Differentiated Career Services to Students at PCC
 - Varied communication strategy based on units completed
 - Highlight faculty members and their journeys to their path with a specific degree
 - Build off the STEM banquet with more generalized meet up
 - #PCCCareerDream campaign

Upon revisiting the ideas listed above please:

- 1) discuss how relevant/aligned these practices/strategies are with the problem statement:
 - a. PCC does not provide a customized student experience through program of study that embeds academic and career supports
- 2) consider if these strategies are attainable with the timeline that we have ahead of us (one academic year)
- 3) discuss how we as a group can measure the success or limitations of the strategy
- 4) identify specific partners who can assist with this potential strategy
- 5) create a tentative timeline that you believe is realistic with the capacity of this team and the resources at our disposal

Strategies for Redesigning Classroom - Key Points

Speech Course: Career Module Addition
